Karangahape Road Enhancements Project – Stage one construction

Stage One construction will be carried out in two sections, at the same time

1. Ponsonby Road to Howe Street northern side approx. **4.5 months**
2. From Symonds Street to Upper Queen Street southern side approx. **2 months**

In the past few weeks the team have been on the road talking to businesses and residents in Stage One about the works and likely impacts, with plans to return later when the construction staging plan is finalised.

For those located outside stage one, the team will meet with them closer to when work starts in their section.

If you have any concerns, you are welcome to contact AT Stakeholder Manager, Paul.Edmonds@at.govt.nz
