

## Pitt Street Update: Night works and lane reductions

Dear neighbours,

From **3 – 7 May** (with 10 – 14 May as contingency for bad weather) we will be working at night on Pitt Street, between Hopetoun Street and Karangahape Road. This work will take place between 9PM and 5AM. Please ensure your car is not parked on the street at this time.

Our work involves the installation of traffic barriers and line marking around Beresford Square, which will reduce Pitt Street to one lane in each direction around this location. This setup will remain in place for the duration of the construction activities for Karangahape Station, scheduled for completion in 2024.

Pitt Street (between Hopetoun Street and Karangahape Road) will be closed to general traffic during our night works with a detour in place. Access for residents, businesses, emergency services and to Poynton Terrace will be maintained.

### Why are you working at night?

Pitt Street is a key arterial route with high traffic volumes. Night works are necessary here to minimise disruption to Auckland's traffic network.

### How will this affect me?

Aspects of the work will create some noise and vibration. We will make every effort to minimise these impacts by using noise mats and equipment that generates less noise. Monitoring systems are in place around the site to ensure we adhere to approved parameters.

### Parking

On-street parking on Pitt Street, from Karangahape Road to Greys Ave will be removed for the duration of our construction activities. The loading zone around 57 Pitt Street will be maintained as long as safely possible with an alternative loading bay created in Beresford Square near Day Street.

### Where can I go for more information?

**If you have any questions or concerns about these works, please email us at [karangahape@linkalliance.co.nz](mailto:karangahape@linkalliance.co.nz) or phone 0800 CRL TALK and press option 4 for Karangahape Station works.**

Information and updates are also available online at [www.cityrailink.co.nz](http://www.cityrailink.co.nz) - including a page dedicated to Karangahape Station works [www.cityrailink.co.nz/karangahape-station-works](http://www.cityrailink.co.nz/karangahape-station-works). You can also follow the CRL project on social media with Facebook, Instagram, YouTube and LinkedIn.

Thank you for your patience and cooperation with these works so far.
